You need to cultivate your own personal magical system that you have tested scientifically, so you know what works, and what does not. You will need to develop your very own style and format of how you use magick. There are many people who use the same systems and rituals and they do work. However, I believe in being a solo practitioner of magic and witchcraft and you do not have to follow any particular system. If you do choose to follow a magical system be sure they explain a step by step system of advancement and be sure it is based on love and light.

If a magical system incorporates the left-hand path or black magick, I advise that you remove yourself from that source of energy. Whether it be a person, website, book, thought, idea, or imagined impulse. Black magick is

wrong and will only destroy the person who sends it outwards. There is a rule that all witchcraft spells PDF explains, that magick will come back to you three times over. This is how our word and universe are governed. The magical realm is the realm of thought and ideas.
