I go by the name Dreaming Wizard. I am an anonymous magician and felt compelled to expose what works and how to actually attain the status of a wizard or witch. Now I am not talking about Harry Potter or any fictional witchcraft. I am talking about the real deal. I will show you how to harness the powers of your thought, willpower and imagination to literally get whatever you want from your life. I have used magic for over 25+ years. I am a Master of only myself. However I know I have many things I can teach you. That is why I created the website [www.howtolearnmagick.com](http://www.howtolearnmagick.com)

## The Second Master Key For Magical Success!

In the last lesson, we discussed the importance and value of developing your willpower to achieve greater results with your magic spells and magical rituals. This is the second part of a three-part series on the 3 key elements that are required to achieve results with magic. You can read the first report by [clicking here](#).

We will carry forward on our journey to discovering and awakening real magic powers by engaging the topic of creative visualization and the powers associated with the imagination. Imagination is the second key to unlocking very real magic powers and utilizing psychic ability. The world of the mystics and ascended masters began with embracing the 3 elements for magical empowerment.

Now we will move forward and talk about the imagination and how it can be used creatively and constructively to help turn your mental based desires and wishes into concrete reality. You can do this as everything is mind including this "physical" reality we exist in. All is Mind. When you can alter your mind and empower it with specific techniques you can utilize universal forces to change and alter the webs of reality to fulfill your desires. We will go further into how to engage your imagination and use it to it's fullest and most powerful effects below.

You want to have a creative imagination that you can use to control and manipulate how you perceive the world and more importantly for changing reality in an empowered mental state while performing a magic spell or ritual. Imagination is absolutely fundamental for magical success and we actually use our imagination every single day in almost everything we do in daily life.

We imagine for example that the paper currency we carry in our wallets is worth goods and services. If we as a global society decided not to believe in the currency it would no longer hold value or be accepted as a reality. We have been engrained to use our imaginations to conduct social behavior and interactions. We also use our imagination to hold ourselves back by imagining fears and terrors that will happen in the future or create anxiety in our minds with imagination. However, you can use imagination to your advantage. When in a deep meditative state, for example, you can use creative visualization techniques to do things like astral projection among other things. Having a strong imagination can help you to create a blueprint for your magical act to follow to be realized in reality.

Using creative imagination can also unlock information, wisdom, and access to higher planes of reality. Many people can harness their creative imagination to unlock very real inner genius. The power of your imagination can give you untold ability and power over your magical spells and rituals and help them to manifest into reality when combined with an empowered mental state and an incredibly strong willpower.

One technique that works with imagination is to see your desired magical result as already having been achieved in your life. You will have to use imagination to see the process visually in the theatre of your mind. Secondly, you will have to imagine that your spell has worked and has already transmuted your desired effect into reality. Using imagination is key to magical success. The imagination is a doorway that can unlock many different parts of the conscious mind. However, you should be careful with it as it can also lead to magical insanity if not properly used. When you begin to develop your imagination be sure to control it and do not allow it to control you. The imagination is a very terrible leader and you do not want to be its slave. But if you use it to its maximum benefits it can be an incredibly powerful and useful agent that can help you to alter the fabric of reality.

Imagination is a corner to magical usage and when you develop it and strengthen it you can do innumerable things with it. Without imagination, your magical spells and rituals will not have too much power and will be more than likely useless. Remember that this is the second key to magical mastery and there is also a third ingredient to achieving magical power which you will read about in the next lesson.
