Within this manual you will discover more modern methods of wisdom attained through magick. You are not going to be told to follow a certain system or path of magic or to worship any Gods or deities. The training I provide at [www.howtolearnmagick.com](http://www.howtolearnmagick.com) is based on the theory of Chaos Magick. I have been training for over 25+ years in the magical arts and I aspire to bring you the foundation and keys necessary to unlock very magical ability and psychic wisdom in your daily life. Many people believe that a simple magic spell is all they need to unlock power.

Unfortunately 99% of those people will never achieve any results with their magical intent. However there are 1% of magicians, wizards and witches who do actively engage and harness the powers of the Universe to attain their personal desires and wishes. I am one of these people.

I go by the name Dreaming Wizard. I am an anonymous magician and felt compelled to expose what works and how to actually attain the status of a wizard or witch. Now I am not talking about Harry Potter or any fictional witchcraft. I am talking about the real deal. I will show you how to harness the powers of your thought, willpower and imagination to literally get whatever you want from your life. I have used magic for over 25+ years. I am a Master of only myself. However I know I have many things I can teach you. That is why I created the website [www.howtolearnmagick.com](http://www.howtolearnmagick.com)

## Some Questions About The Dreaming Wizard

# Answered For The First Time!

Unfortunately there are millions of websites online with many different people claiming to be experts and teaching different magic spells and systems of the occult and for the most part, people will not benefit from these teachers. There are too many websites that are making false promises and focus primarily on magic spells and not the application of developing the proper mind state and mental ability to make your magic work.

This is why I created the website [www.howtolearnmagick.com](http://www.howtolearnmagick.com) I found that there was a lot of information about magic but it can lead to information overload which can end up harming you more than it can help with experiencing results. This following report was created to answer common questions about myself, about my training available and other things you may wish to know.

Take your time and review the questions below as I have answered them to the very best of my ability. If you choose to wish the magical arts and sciences from me, this newsletter and the book, [How To Gain Psychic & Magick Powers Exposed](#) then read the following to learn.

## Question #1 - How long have you been involved with magic?

This is a great question and one I have no problem with answering. I have always been a spiritual person since childhood. I was raised in a Christian family and that is what brought about my love for spirituality. As a Child, I noticed I had the ability to know things ahead of time and even if I thought hard enough about something it could happen in my reality.

At the age of 13 years old I began to question reality and spirituality. My quest consisted of researching many different world religions, physics, the occult, mysticism, Taoism as well as Zen. By the age of 18 years old, I had a full-on spiritual awakening that caused major changes in my life. I suppose now I have been a magician for 25+ years of my life and I also have had 3 near death experiences which changed my beliefs as well. I would say that magical ability and the pursuit of the psychic arts have always been a major part of my life and they will continue to be.

## Question #2 - Why do you believe you can teach me magic?

I have been studying the magical arts for over 25+ years and I have learned from many different magical and mystical teachers during this period of time. For the most part, I have met mystics and magicians that were focused on self-empowerment, discovery and the ultimate goals of enlightenment.

Many of these teachers were great and came from different paths and had many different methods and techniques that they used to master themselves and the magical arts. I have also met dark teachers who practiced in black magic. I learned from them as well. What I ultimately learned from these dark magicians was that they are destructive and not to listen too. So I left them. I have also studied under different magical orders including a few secret societies.

My personal goal is to help you to develop yourself to be the very best and greatest you can be. Also to achieve the highest form of personal development while using magic to improve his or her life as well as the lives of other sentient beings.

## Question #3 - Do you believe or teach Black magick?

To begin with I know black magic works and I also understand that it ultimately destroys the person using it and damages the sender in the end. Time runs in a circular pattern. What has happened will happen again. What you send out to the universe will come back to you.

Hurting other people using black magic is a mistake because when you truly identify and experience the mystical state you will understand and have full realization that everyone else on this planet is another reflection of you. We are all one consciousness experiencing itself subjectively. When you do a black magic spell you will only hurt yourself. It will come back to you.

Maybe not in this lifetime but in future lives. This is why I am against black magic and will have nothing to do with it. I will not teach the tragedy of black magic and if you learn anything from this lesson hear this lesson clearly. Black magic will only hurt you in the end. Don't use it.

## Question #4 - Do you believe in reincarnation?

Reincarnation is spoken of in many different world religions and I have my own personal take on this belief. I do believe we in reincarnate. If you truly understand the infinity that you are you may understand that this life is merely here to experience and learn.

You will also continue learning and experiencing as you continue to incarnate. You can find out your past lives and learn lessons from them through deep introspective meditation as well as dream travel or usage of hallucinogenic drugs. I am aware of my own personal past lives and have learned from them. I have died three separate times in this lifetime and have experienced an afterlife although briefly as well. From my own experience, when you die, you leave your body in soul form, spend time in a personal heaven before you incarnate back to Earth with your associated Karma from previous lifetimes. This is my own belief through experience you don't have to agree with it.

## **Question #5 - Are Gods, demons, angels and other spiritual beings real?**

Only you can really answer this question for yourself. In my own personal experiences yes otherworldly beings do exist. I can verify this fact for myself only and don't take my word for it. You will have to use your own wisdom on whether you choose to believe in spiritual beings or a God. In my opinion, there are millions of Gods and beings that exist in this universe. In fact, there are billions. I suggest that if you ever choose to work with otherworldly spiritual beings that you only work with and listen to entities that spread the message of self-knowledge and love for yourself as well as others. Spiritual entities that encourage you to hurt yourself or other living beings are not good and they will eventually destroy you.

## **Question #6 - What is it like having magical powers?**

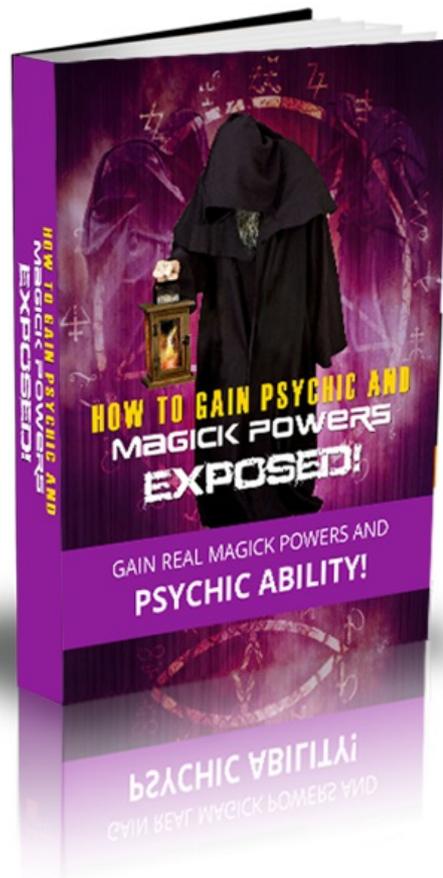

Once again I can only speak from my own personal life experiences with this question. Having magical abilities and using spells and rituals to change the outcome of my personal life is fun and can be amusing. I notice small synchronicities and spontaneous positive events in my life daily. I have more natural luck than most people I know too.

I also have a natural psychic ability that gives me access to information sometimes minutes ahead or weeks ahead of time. My friends and family understand I am different but I don't walk around trying to gain or gather attention. I like being anonymous. I know with my magical abilities that people are naturally friendly around me and I am very rarely caught off guard by experiences that are negative. I also use my magical insight to help other people by teaching magic on my website [www.howtolearnmagick.com](http://www.howtolearnmagick.com) and also in my tell-all eBook called, [How To Gain Psychic & Magick Powers Exposed!](#)

I hope these questions were answered to your satisfaction and that you have learned some more information about this newsletter, my website, myself and the book [How To Gain Psychic & Magick Powers Exposed!](#) Magic can truly be whatever you wish it to be and I will do my best to encourage you and offer insight into the worlds of mysticism and magic.
